

ADVT. NO.1: KMRL/HR/WT/2020.

The integrated Water Transport System for Kochi was proposed with the objective of connecting the mainland with the islands, around the Kochi lagoon. Kochi Water Metro Project is envisaged as an integral urban Water Transport project to connect the Islands of Kochi to the main land through Modern Water Transport system with the primary aim of improving connectivity of the people and thereby improving their livelihood and standard of living. The project is conceived as an environmental friendly, modern urban transport system with 15 identified routes over 76 km of route length. With 78 boats and 38 terminals, when completed the water transport system would be the second largest water transport system next to only Venice, as per Project Report. KfW, Germany and Govt. of Kerala are funding the project. It is proposed to use the state of the art modern electric catamaran boats for the operations. For starting the ground work for the operations Kochi Water Metro requires the following personnel: -
